TECHNICAL FOCUS AREAS

- **Machine Learning & AI:** Data Analysis, Deep Learning, Foundation Models, Efficient Adaptation, Computer Vision, Multimodal Learning, Physics-Informed Neural Networks, Generative Modeling.

EDUCATION

Texas A&M University, College Station, Texas — September 2022 - December 2026
Doctor of Philosophy in Computer Engineering

Sharif University of Technology, Tehran, Iran — September 2018 - February 2021
Master of Science in Electrical Engineering

University of Tabriz, Tabriz, Iran — September 2014 - September 2018
Bachelor of Science in Electrical Engineering

PROFESSIONAL EXPERIENCE

Texas A&M University, College Station, Texas — September 2022 – December 2026
Graduate Research Assistant

- **Developed** a novel distribution-guided parameter-efficient fine-tuning method using histogram layers for Transformer-based foundation models for waveform-based sensing applications.
- **Adapted** a computational pathology framework to investigate parameter-efficient fine-tuning of vision-language models for ethanol drinking status prediction from liver histology under few-shot setting.
- **Reduced** ground truth data requirements by a factor of 15 for physiological signals by developing and evaluating physics-informed neural networks for cuffless blood pressure measurement.
- **Conducted** research supported by fully funded assistantship from the National Institutes of Health and MIT Lincoln Laboratory for AI-enhanced digital health & Earth observation applications.

PEER-REVIEWED PUBLICATIONS

- **A. Mohammadi,** R. Khadka, K. A. Grant, M. L. Benton, and J. Peeples, "Predicting Ethanol Drinking Status from Nonhuman Primate Liver Histology: A Proof of Concept for Parameter-efficient Fine-tuning in Few-Shot Vision-Language Modeling," *IEEE International Conference on Bioinformatics and Biomedicine,* 2026. (Accepted)
- **A. Mohammadi**, D. Carreiro, A. Van Dine, and J. Peeples, "Histogram-based Parameter-efficient Tuning for Passive and Active Sonar Classification," *IGARSS 2026 - 2026 IEEE International Geoscience and Remote Sensing Symposium*, Washington DC, DC, USA, 2026, pp. 5031-5035. [link].

ACADEMIC SERVICE

- Area chair, IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP).
- Session chair, IEEE International Geoscience and Remote Sensing Symposium (IGARSS).
- Delivered guest lectures in Machine Learning for Electrical Engineering at Texas A&M University.
- Mentored undergraduate and graduate students on developing machine learning & AI projects.
